What is DAMIR?

**DAMIR is a web-based tool that:**

- Provides enterprise visibility to Acquisition Program Information to include cost, schedule, performance and contract information.
- Includes all MDAP and MAIS programs.
- Allows OSD to perform its oversight role and respond to OMB and Congressional needs.
- Improves data consistency and timeliness of information.
- Enables two-way information flow.
- Promotes net-centric information principles.
- Retires the family of legacy acquisition reporting systems (i.e. Consolidated Acquisition Reporting System (CARS)).
